Dear Reader,

CTRL Reality Hosts a Transnational Project Meeting in Turku, Finland

CTRL Reality, a leader in innovative Mixed Reality solutions, hosted a transnational project meeting in Turku, Finland, from September 27-28, 2022. This gathering brought together 22 participants from the FutureBIO project partner organisations.

Key Highlights of the Meeting

Project Progress Report: Dr. A. Işıtan, Project Coordinator, delivered a comprehensive report, spotlighting achievements already completed and outlining how the strategic objectives of the project are being met.

Transnational Cultural Report: G. D. Boca shared insights into diverse cultural experiences, emphasizing the importance of international collaboration in both creating and consuming the project results.

Curriculum and Book Chapters Determination: A. Işıtan and Y. Öztekin unveiled the final curriculum, assigning responsibilities for book chapters, and provided real-world case examples.

Competence Map Creation: F. Kırmızı presented a thorough plan for the project competence map, offering clarity on the diverse skill sets within the project and especially how to present them in the correct and coherent manner.

Online Material Creation and Tips: N. Catenazzi and L. Sammaruga led a dynamic session on crafting interactive learning materials, sparking collaborative discussions.

Discussion on planned Virtual Reality training scenarios: T. Lehtonen and T. Korkalainen explored innovative VR applications, inspiring new ideas and providing insight into the possibilities and limitations of high end virtual reality solutions for the dissemination of the project results.

Cultural Integration Activity: Participants visited the Aboa Vetus museum, enhancing understanding of European and Turkish common cohesion and understanding of shared history and values.
